855 Lexington Ave. 2nd Floor

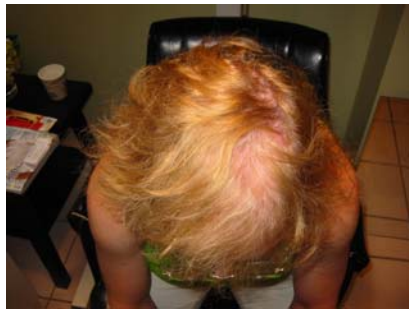

Low Laser Light Hair Therapy Results

www.NaturalImageHair.com

This is Linda's treatment from 05/16/07 through 06/14/07. She comes twice a week for a 15 to 30 minute session. She shampoos, conditions, and applies a topical skin product after each shower. She has experienced an increase in the size, density, and curl of her existing hair, and has seen the re-growth of many new hairs in less than one month! She works at a Major Re-Insurance Company, and would be happy to share her experience with you.

Call 1-877-665-HAIR(4247) for information prices and availability.
